PROFESSIONAL SUMMARY

Computer Science undergraduate and full-stack developer skilled in React.js, Next.js, Node.js, and MongoDB, with hands-on experience building and deploying production-grade web applications. Proven track record in hackathons and open-source contributions, with a growing focus on ML-driven products and developer community building.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript (ES6+), TypeScript, SQL

Frontend: React.js, Next.js 14, HTML5, CSS3, Tailwind CSS, shaden/ui, Bootstrap

Backend: Node.js, Express.js, Flask, RESTful APIs, Passport.js, Session Management

Database: MongoDB, MongoDB Atlas

ML/AI: scikit-learn, Classification Models, Data Preprocessing

Tools: Git, GitHub, Postman, Cloudinary, Render, Vercel, VS Code

Concepts: DSA, OOP, DBMS, OS, MVC Architecture, REST, CORS, Authentication & Authorization

EXPERIENCE

Developer Intern

Jul 2026 – Present

MediKarya Technologies Pvt. Ltd. • DPIIT-Recognized Startup

- Building product features for an AI-powered clinical learning platform for medical students, working directly with the founding team.
- Developed a Medical Case Authoring Portal with a 6-step form wizard, live preview, and case management using Next.js 14, TypeScript, Tailwind CSS, with Clerk authentication.
- Deployed on Vercel; independently debugged TypeScript type errors and Next.js Suspense boundary issues in CI/CD pipeline.

Google Student Ambassador

May 2026 – Present

Google

- Host workshops and peer learning sessions to introduce and demonstrate AI tools like Google Gemini AI, helping peers use AI effectively in daily life and projects.
- Building an AI-aware community on campus while receiving mentorship from Google employees and networking with student leaders and industry professionals as part of a national ambassador network.

PROJECTS

TrustHire — AI-Powered Hiring Trust Platform

React.js | Node.js | Express.js | MongoDB | GitHub API | REST API

- Built a full-stack hiring platform with dual-sided AI trust scoring automating credibility assessment for candidates and companies.
- Engineered a Honesty Engine cross-referencing self-declared skills with GitHub activity to dynamically adjust candidate trust scores.

AuraCycle — PCOD Risk Prediction & Cycle Tracker

Python | Flask | MongoDB Atlas | scikit-learn | JavaScript | Render

- Developed a full-stack web app predicting PCOD risk using a trained ML classification model with real-time inference via Flask REST API.
- Deployed on Render with gunicorn; CORS-secured backend with MongoDB Atlas and responsive Vanilla JS frontend.

OptiStay — Full-Stack Rental Platform

Node.js | Express.js | MongoDB | Passport.js | Cloudinary | Render

- Engineered an Airbnb-inspired rental marketplace with session-based auth, 10+ CRUD REST endpoints, and MVC architecture — 95%+ uptime.
- Reduced MongoDB query latency ~40% via compound indexing; cut media load time 30% with Cloudinary CDN integration.

EDUCATION

B.Tech — Computer Science & Engineering, ABES Engineering College

2023 – 2027

Senior Secondary (CBSE) — PCM, Aryavrat Public School | Score: 80%

2023

ACHIEVEMENTS & COMPETITIVE PROGRAMMING

- WEBNOVA 2026 — National Level Web Development Hackathon (IMS Engineering College x HackerRank): Finalist, as Team Leader.
- Elite Her Hackathon (Apr 2026): Led team to Top 100 nationally as Team Lead — set technical direction and managed end-to-end delivery.
- National Level Hackathon at SGU (Mar 2026): Secured Top 10 / 250 teams as Frontend Developer — shipped React.js + Tailwind CSS UI under tight deadline.
- Finalist in National level offline Hackathon Quantcraft at Galgotia University presented TrustHire.
- DSA: 600+ problems solved — LeetCode (100+: arrays, trees, graphs, DP) & CodeChef (500+, 25-day streak); HackerRank Problem Solving Intermediate certified.
- GitHub: 20+ repositories with structured READMEs and consistent commit history demonstrating version control discipline.
